

ABDUL WAHID SIBLY

Mechanical Engineer

Phone: 01873169474

Email: siblynoman05@gmail.com

LinkedIn: linkedin.com/in/awsibly971

Address: 66/A Indira Road, Farmgate, Dhaka-1216

SKILLS

CAD & Design
- SolidWorks
- Assembly Design & Weldments

Simulation
- ANSYS Workbench (FEA)

Manufacturing
- Design for Manufacturing (DFM)
- Welding & Fabrication

Other
- MS Office • MATLAB
- Technical Presentations
- Cross-functional Collaboration

LANGUAGE

- English
- Bengali (Native)

HOBBIES

- Cycling
- Reading
- Travelling

Summary

Results-driven Mechanical Engineer with hands-on experience in motorsport engineering, CAD product design, and sustainable design. Skilled in chassis design, simulation, and aerodynamics through Formula Student competitions (Formula Bharat & FS Combustion China). Builds functional prototypes from concept to fabrication, including a Formula Student chassis, a recycled-parts F1 car, and a folding drone frame. Published researcher in sustainable materials.

Experience

Bangla Trac Limited – Bangla CAT (Intern)

May 2025 – June 2025

Hands-on experience with diesel and gas generators, including alternator, piston, camshaft, bearing, and cooling system maintenance. Operated load banks, jib cranes, and honing machines, with experience in diagnostics, simulation, and technical presentations.

MIST Blitz (Senior Engineer & Finance Member)

Apr 2024 – July 2026

Designed first chassis and performed simulation in ANSYS. Managed team budget, subsystem costs, and procurement. Iterated designs through testing and cross-functional technical collaboration.

Projects

- **Spaceframe Chassis Design (Formula Student)** — SolidWorks Weldments + ANSYS FEA
- **Radial Engine CAD Design & Assembly** — SolidWorks, fully constrained assembly with drawings
- **F1 Car from Scrap (Recycling Project)** — welding, laser cutting, machining
- **Folding Drone Frame Design** — SolidWorks, 3D printing
- **Laminar Flow Analysis in a Circular Pipe** — ANSYS Fluent, CFD validation.

Education

Bachelor of Engineering in Mechanical Engineering

Military Institute of Science and Technology, Dhaka, Bangladesh

Mar 2022 – June 2026 | CGPA: 3.27/4.00

- **Relevant Coursework:** Noise and Vibration, Solid Mechanics, Fluid Mechanics, Machine Design, Aerodynamics, Internal Combustion Engines, Engineering Materials.

Certifications, Publications & Achievements

- **Business Analysis & Process Management** – Coursera (July 2026)
- **Published research paper** on environment-friendly ecobricks as a sustainable structural element (ICMEAS 2025).
- **Best Foreign Team Award** Formula Student Combustion China (FSCC) 2025
- **Best Presentation Performance**, Static Event — FSCC 2025
- **4th Place, Business Plan Presentation** — FSCC 2025
- **1st Place in Engineering Design** — Formula Bharat 2025
